Thinking one step further!...

Two fundamental statements

1. Not everything is allowed
2. Prosperity does not only refer to money, but to the balance between economic wealth and environment

The research

What are we doing in the Alps?

- Energy and education
- Just few adaptation measures
- Reaction instead of pro-action
- In Italy a lot of studies and researches
- Concrete countries: Austria, Germany, Switzerland

Thinking one step further!...

- What is good and what is bad?
- Where are the limits?

What do we do?
